19 April 1963

1. There was a special Executive Committee Meeting today at which Mr. Kirkpatrick and I served as co-chairmen. The purpose was to consider again the question of whether, in planning for additional construction at Langley, we should relocate the Clandestine Services to some displaced locale. It was the unanimous opinion of those present that we should plan for the Clandestine Services to remain here and undertake additional construction for the remainder of the headquarters elements of the Agency. (See my Memorandum for the Record.) *H*

2. I talked to Mr. Kirkpatrick about home leave travel for [REDACTED] family. He approved and will accept responsibility.

3. I also asked Kirk to prod Ray Cline in completing his space plans.

4. Kirk asked me to develop and publish an Employee Bulletin cautioning employees against speeding.

1. [REDACTED] advised me that at the special meeting of the Automatic Data Processing Committee with [REDACTED] of OSA, it was decided that the IBM 7090, rather than the IBM 490, is the computer which OSA should have. Joe said that the reasons for buying the 7090 are compelling. Paul Borel and [REDACTED] are somewhat unhappy because they have not been fully cleared. Joe didn't believe that such clearances would have helped in making the decision. H

2. Jim Garrison called to say that he was having difficulty getting the money for the alterations which [REDACTED] obligated during this fiscal year. I told him to go back [REDACTED] and to pull out all of the stops to get this done. 25X1A

3. Shef Edwards advised me that the Director was quite unhappy about the quality of the tape which was made of his recent conversation with Stewart Alsop and that [REDACTED] would probably be coming to see me about it. Walt did come in, and as a result of his visit we agreed that the best man General [REDACTED] could designate and the best man [REDACTED] could designate should, under [REDACTED] direction and in concert with [REDACTED] examine the whole setup to make sure that we have the best possible arrangement. (I arranged with [REDACTED] to do this.) 25X1A9a 25X1A9a 25X1A9a

4. Walt also talked to me about changing the character of the DCI Security Staff to be more of an aide-type function and of drawing personnel from all of the Deputy Directorates and not just the Office of Security. In other words, he would select an aide and give him weapons and training; his "protective" duties would actually be secondary to his "aide" duties. Walt also would like to replace [REDACTED] I told him to hold off on both of these actions if he could until after Shef Edwards retires; I thought we could then work it out without too much difficulty.
